HAPPY NEW YEAR!

Dear friends, partners and fans of ADRIAN GROUP! We entered 2022 with hope to keep up all the good results and work we managed in past years together. Besides we set new goals and aim for next achievements in the future. Let's all wish for the best and especially strong health and will.

NEW REFERENCE HMC INVEST

Just before Christmas we set into operation hot air gas fired heating system for HMC INVEST in industrial part HT MAS, Vlkanová Slovakia. [Heaters ADRIAN-AIR AX 45 and AX 35](#) with new automatics and in complete ERP design will provide temperature regime for French investor DELZEN. Production technology emits enough heat during the operation. Our task is to secure safe start on regular basis and protection against low temperatures when production stops.

## SERVICE AND MAINTENANCE MEAN RELIABILITY

Winter is coming! In different regions the low temperatures hit in various moments. There are users that have not yet started the heating and there are others that heat already for two or three months. Either way, the only solution for safe and reliable energy system performance is to get it checked and fixed by professionals. ADRIAN GROUP has increased its capacities in both personnel and equipment in order to provide quality service and maintenance for you. Order our services now and contact us at [servis@adrian.sk](mailto:servis@adrian.sk) or +421 948 407 131.

## SONNIGER

There is new price list available valid from January 1<sup>st</sup> 2022. Favourite hot water units and large range of door curtains will be available in new year. Simplified accessories save a lot of costs going into new projects. Speed controller and Control box where both replaced by [SPLITTER MULTI 6](#) combined with [PANEL COMFORT](#). Same functionality at lower price to be applied onto 6 units in the same time. All news is already displayed in our e-shop. Ask for new price list, technical documentation and drawings for project designers here. More information available at [adrian@adrian.sk](mailto:adrian@adrian.sk) or +421 948 312 270.

## NEW REFERENCE TECHNOMETAL

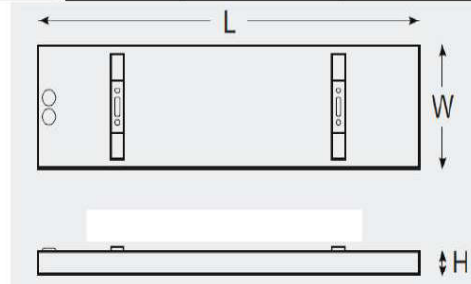

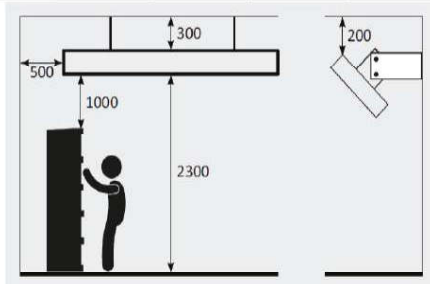

Our cooperation with general contractor HANT and installation company R-MONT Ryšavý continues. New application was realized in plant of [dark gas fired heaters](#) in AR SHELVING /Technometal, Bytča, Slovakia/ was finished just before the end of 2021. It will provide comfort temperature in both production hall and warehouse. Project is a result of long-term cooperation. It proves once again that technical support, prompt delivery and smooth execution are as important for the construction or maybe even more important as the price quotation.

**EXCLUSIVE DISCOUNT 22 % ON ELECTRIC RADIANTS**

With start of 2022 we introduce special 22 % discount on [electric infrared heaters](#). Where you surprised by winter coming? Isn't there gas in your premises? Does it take forever to get all permits and projects for other heating? Do you need to heat only locally in certain times? Electric heating could be just what you need. Is suitable for whole surface heating as well as local comfort. It is efficient in indoors just as it is in roofed exterior spaces or terraces. Contact us and we will prepare technical solution and commercial offer fast and free of charge. Discount applies until February 28<sup>th</sup> 2022. For all orders before the end of February we offer discount 22 % on all decontamination personal protectors [AERIASHIELD](#) and [NOMAD](#).
