NEW REFERENCES

The popularity of [evaporative coolers](#) grows in various large volume buildings. AGROBAN from Bátka, Slovakia, is an important livestock farm. Adiabatic cooling was delivered for special premises of maternity ward. Environmentally friendly decrease of internal temperature at minimum costs of energy will improve conditions in the hall significantly. Besides lowering the temperature, it will provide better ventilation and circulation of air. In second stage we plan to deliver evaporative coolers for stables and automatic milking barn.

MOBILE COOLERS IN ACTION

[Evaporative cooling](#) is suitable not only for work and living premises. More and more applications come from cultural objects, gastronomy or sport. [Mobile coolers](#) are specifically popular for occasional or one-in-a-time events or if the customer rents the premises and no installations are allowed. Once again, we have provided evaporative cooling for local youth tournament in floorball. We managed to create cooled relax zone for players resting on the bench or for anyone during the breaks. Having gym full of kids means trouble with heat almost any time a year. Simple solution on wheels with no construction works necessary. It takes only few litres of regular water to make conditions for playing kids better.

INTERNATIONAL FAIR MSV 2022 NITRA

After two covid years well known exhibition MSV in Nitra, Slovakia took place at the end of May 2022. We introduced new effective solutions in [heating, cooling and ventilation](#) of large volume premises and future trends. These technologies and their applications prove over and over again that [saving energy](#) has great potential to form significant operational costs reduction. Together

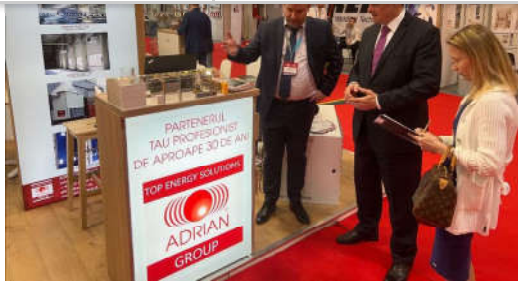

meetings and discussions at the fair and exhibition confirm that ADRIAN GROUP and its solutions are needed even in these difficult times. We are here for you.

METAL SHOW & TIB EXHIBITION IN BUCHAREST

ADRIAN GROUP presented its technologies and new products at METAL SHOW & TIB in Bucharest, Romania in May 2022. Great national stand full of interesting ideas provided by [SARIO](#) caught attention of many visitors from entire country and around the world. [Slovak ambassador](#) Mr Karol Mistrík with his team visited our exposition as well. Our sincere thank you to all visitors and partners and we hope for good cooperation in close future.

SLOVAK CHAMBER OF COMMERCE DELEGATES ASSEMBLY

Constitutive assembly of delegates of Slovak chamber of commerce and industry took place June 2nd 2022 in Bratislava. New members of all bodies were nominated and elected for 7th turn in 2022 – 2027. During the ceremonial program vice prime minister and minister of economy Mr Richard Sulík and governor of National Bank of Slovakia Mr Peter Kažimír addressed all attendees. Together with president of the chamber Mr Peter Mihók they awarded selected companies for ethical behaviour in business. ADRIAN GROUP as a long-term partner and repeated member in directing bodies is happy to be part of the forming future of business in Slovakia and abroad.

NEWS IN DECONTAMINATION TECHNOLOGY

At the international technological fair MSV in Nitra, Slovakia, we introduced new addition to our range of decontamination units EMMA NELLA. **STYLUS** is designed to protect area of 120 m² and it is ideal for shops, offices, homes, places of first contact, pharmacies etc. Combination of electro chemical processes in special reactor is a powerful tool. It breaks down molecules of air particles that enter the unit and it mineralises them back into a normal air entities. It creates new

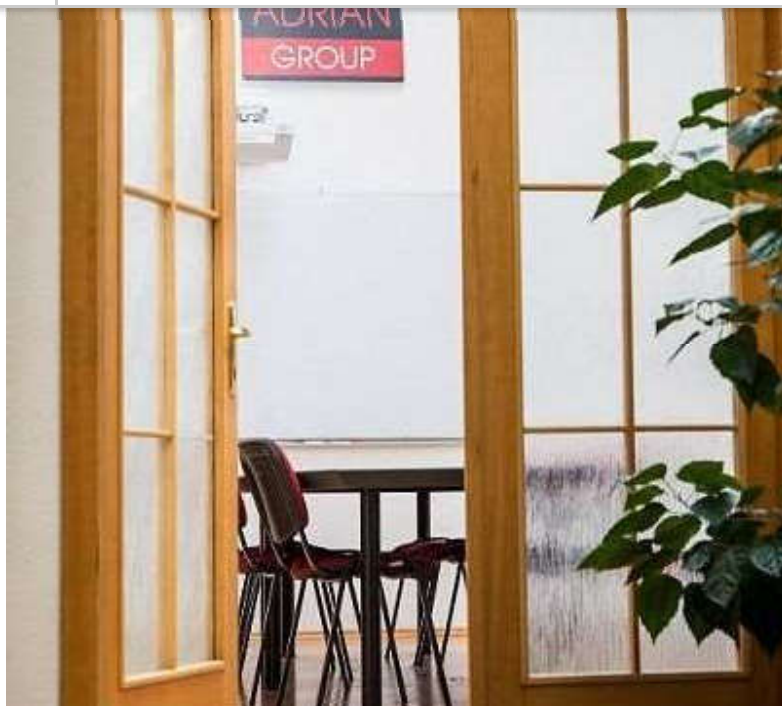

does not require people or animals to leave the decontaminated premises. Technology is certified by world known [Institut Pasteur](#) in Paris. [STYLUS](#) comes with intelligent SMART controller and free of charge application for your phone. Simple setting and graphical information about quality of air inside in real time. Choose the colour that suits you best. For large orders we offer customized design.

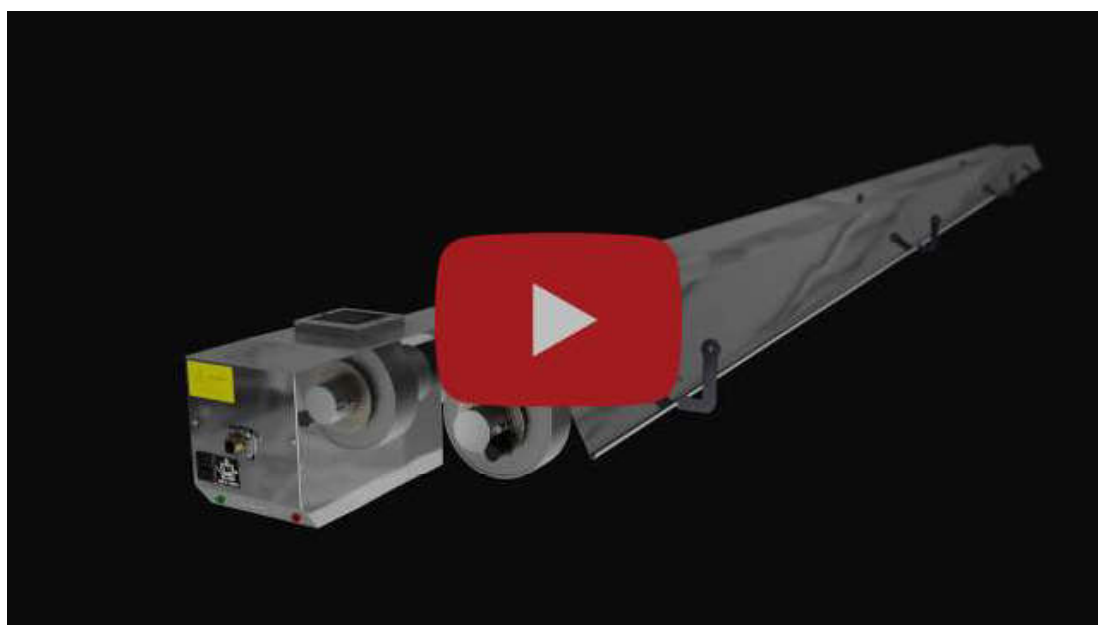

OPEN DAY IN ADRIAN GROUP

Everybody who is excited about internal microclimate of premises and new technologies is most welcomed in [ADRIAN GROUP](#) in June 22nd 2022. Starting at 9 a.m. until 2 p.m. all our sales managers and technicians will be available to you for meetings and discussions at our premises. Besides main focus points such as [evaporative cooling](#) and new [decontamination technology](#) developed together with Technical university in Košice we will be at your disposition to discuss your ideas. Our production halls will be open and you will be able to see how we work and what we do. All participants will automatically join the competition with a draw for valuable award - unique ADRIAN surprise.

SERVICE PARTNER TRAINING IN JULY

We invite all partners of [ADRIAN GROUP](https://www.adrian.sk) to a special service training for technicians. It will take place in July 14th 2022 starting at 9 a.m. All changes to products and range will be discussed and plans for upcoming months will be presented. Come to get your hands on our products, meet our professional technicians, learn and practice how to deal with various situations at customers premises. We will focus on differences in design and construction between original models and all innovated ERP and ECOdesign units. Only EUR 30,- per company. Number of participants is limited. Contact us at sales@adrian.sk to get your training.
