**INTERESTING USE OF ELECTRIC INFRARED HEATERS**

By the beginning of September 2019, the water reservoir Ružiná was emptied in order to provide reconstruction of the dam itself and its technologies. Works are scheduled for 3 – 6 years and it will all end with water being pumped back in. Heat comfort in operation rooms where service of part of the technology is installed is secured by electric infrared heaters [ADRIAN-RAD Q3000](#). Well done by our partner ELEKTROPROGRES, Banská Bystrica.

## HOT WATER UNIT SERVES WELL EVEN SMALL ENTREPRENEURS

Do you need to heat smaller objects such at work shop, garage or even smaller? It the hot water your choice? There is better and more efficient solution than radiators. Have a look at [SONNIGER](#) brand. HEATERS have high efficiency, they are easy to use and well designed. PANEL COMFORT or INTELLINGENT provide automatic regulation. With 3 step speed ventilator adjustment to your needs is simple. Exchanger construction enables solid results even with low water temperature on the inlet. Take a look at new example of installation of [HEATER ONE](#) in car shop with floor dimensions 11 x 7 m located on the ground floor of family house of Mrs Môtiková. The unit provides necessary heat comfort with minimum costs and effort. „We are very happy with the new heater and therefore we order another one straight away to place it to another room which we want to start to use again. Thank you for fast delivery!“ says the owner. Your satisfaction is the best reward.

### SERVICE AND MAINTENANCE

The heating season is on. In the case you have done the necessary service and maintenance of your heaters in advance you should be safe. However, if your heaters lack professional care for longer period of time, you must be ready for anything. Have a look at new video from service staff approaching dark infrared heaters [ADRIAN-RAD E](#) in really bad shape. Not pretty at all. Do not hesitate to contact our professional service crew at [servis@adrian.sk](mailto:servis@adrian.sk).

### UNIQUE GIFT

Christmas time is around the corner and gift shopping is on. We all hope to stay healthy especially in these difficult situation. Give this Christmas something special. Think of bio-decontamination

**personal protection.** Bio decontamination means that it aims to deactivate biological contaminants such as virus and bacteria. Advanced technology uses micro plasma, generated by dual barrier discharge. It produces highly oxidant radicals and radical clusters which decompose and deactivate molecules of microorganisms. Our products generate active particles and they spread inside the premises and effectively decontaminate the area. This unique solution and its superb performance results (efficiency up to 99,91%) is tested and confirmed by world known Institute Pasteur de Lille in France. In comparison to large stationary products with high investment and operation costs our bio decontaminating products offer comparable efficiency at significantly lower price. Do not hesitate and get them now!
