PF 2021

Dear customers and partners, dear friends and fans,

Thank you for your cooperation and kind confidence in our products and services. It means everything to us. With new year coming we wish you all strong health, many happy moments and success in your personal and professional life.

We all hope for the best and new cooperation in 2021!

NEWS IN HOT WATER UNITS

<u>ADRIAN GROUP</u> as exclusive distributor of <u>SONNIGER</u> brand introduces with January 1st 2021 new HEATER CONDENS technology that meet all requirements of EcoDESIGN2021. With this new level of efficiency we are able to meet demands of low temperature water supply systems for

NEW APPLICATION IN SERBIA

By the end of 2020 we managed to set into operation new radiant heating system for our customer ŠINVOZ, Zrenjanin in Serbia. Together with our local partner MIKOTERM and while following all restrictions and rules regarding COVID-19 we delivered so much needed comfort for wagons production line. 12 pcs of <u>ADRIAN-RAD AA 502</u> are controlled by <u>MULTI-RAD WEB</u> system divided into 4 heating zones. Higher temperature means improved working environment for personnel and technology and it will certainly contribute to the overall quality in this factory.

ELECTRIC HEATING IN WAREHOUSE

BEEWAIR TECHNOLOGY GUARANTEES SAFETY

Air we breathe matters. <u>BEEWAIR</u> technology represents completely new approach how to provide clean air by basically producing new one. Dangerous particles are not placed and concentrated into filters nor you need to empty the space before cleaning as you need to do with ozone and high intensity UV technologies. <u>BEEWAIR</u> destroys all viruses, bacteria and moulds in the air and keeps your home, office, work area or even surgery clean and safe. From now on all premises treated by <u>BEEWAIR</u> technology will be visibly marked. This way you know it is safe to enter beforehand.
