INVITATION - TECHNICAL TRAINING

After a difficult time with pandemic restrictions ADRIAN is totally busy. Series of technical trainings were set up for our service partners. It is a great opportunity to introduce all changes in product range and product details. We are happy to invite for an in-person training for service and maintenance of ADRIAN products. Limited seats for following dates are still available: July 17th, 22nd and 29th. Starting always at 9 a.m. in ADRIAN GROUP in Banská Bystrica. Looking forward to seeing you soon.

NEW REFERENCES - DAVETEC

New installation for dark infrared heaters [ADRIAN-RAD](#) is in operation. Military base heavy mechanical workshops are heated in Michalovce, Slovakia. Radiant energy system proved to be the best solution for high object where temperature comfort is needed instantly without regular base regime. Mr Ondrej Kvaka, general contractor for company DAVETEC s. r. o., commented: „We are very happy with the delivery from ADRIAN GROUP. Ordered goods arrived on time. The organization and coordination when setting the system into operation was great as well as level of technical support.“

LEARN MORE ABOUT COOLING WITHOUT FREONS?

Basic idea of adiabatic cooling is being exploited throughout history until now. Water as a natural cooling element is present in our lives even though we often do not realize how it works and what it does. Evaporation is the most natural way to bring down the temperature and in the same time it is the most environmentally friendly one. Direct humidification of fresh air is also the most effective way to produce high cooling output with minimum input costs.

away part of the energy to regulate the heat. We do the same trick when exercising or doing sports. Who has not ever tried yet to wrap the wet towel around the neck or put on T-shirt soaked with water? Adiabatic cooling is our first choice in extreme situations as well.

MEETING IRANIAN AMBASSADOR

Ambassador of Islamic republic of Iran Mr Abbas Bagherpour Ardekani visited Regional Chamber of Commerce and Industry in Banská Bystrica in order to get to know what potential and capacities for cooperation are available. Mrs Viktoria Vranská, vice-chairman of the Chamber and CEO and commercial director of ADRIAN GROUP, introduced the region and our portfolio to the Ambassador. Details of corridor NOSTRAC connecting Iran with Europe as well as Iranian economic zones such as Aras, Qeshm, Anzali and Kish island opportunities were discussed.

„MOSKITOFREE“ PERSONAL ANTIVIRUS AND REPELLENT

„**MOSKITOFREE**“ is a unique product which builds protection within 15 m² to protect those inside from viruses, bacteria and insects. Besides it fights smells successfully. Its efficiency is approved by Institute of Luis Pasteur de Lille in France. It is designed to work indoors and outdoors. It does not use nor produce any chemicals or other environment threatening elements. Take it with you wherever you go and stay safe.
