SUCCESSFUL APPLICATION FOR SL SLOVAKIA

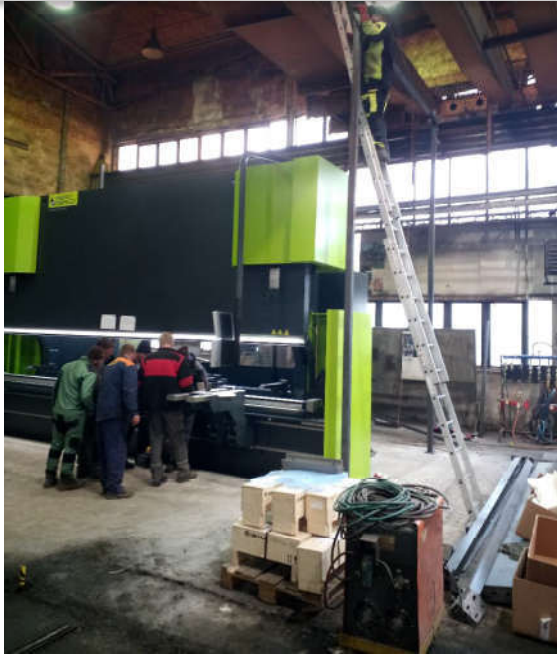

Our aim has always been to meet customer demands. In this case we found a solution to provide heat comfort for press brake machinery SafanDarley H500.61 in production hall of SL SLOVAKIA. Since there was no further gas capacity available, we applied [electric infrared heaters](#). We succeeded to provide normal working conditions for the technology and its staff.

DOOR CURTAINS IN REAL LIFE

Door curtains became popular part of technical solutions in heating. With or without heating, both technologies reduce heat losses significantly. In NEUMAN ALUMINIUM in Žarnovica we chose for 2 loading gates combination of door curtains GUARD PRO 200C and 150C according to width of the opening. Dimensions of these gates are 4000 x 5000 mm and 3600 x 3600 mm. Considering the interior disposition and the use we selected modules without heating installed horizontally above the entrance. Check out the latest photos.

ESHOP ADRIAN GROUP IS AVAILABLE

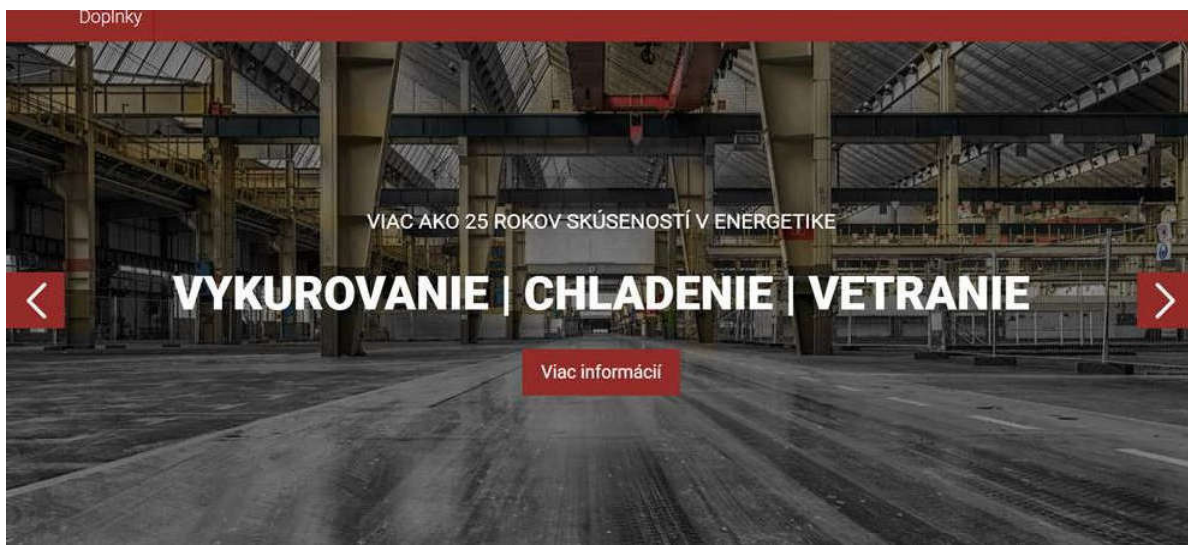

[Subscribe](#)[Past Issues](#)[Translat](#)

Our e-shop, is now more attractive than before mainly thanks to restrictions and limited personal contact. Shop for spare parts online and take advantage of:

EVAPORATIVE COOLING AND MAINTENANCE

October 26th and 27th National Forum on Maintenance 2021 took place. For over 150 participants we prepared presentation of evaporative cooling. This natural and environmentally friendly cooling is more and more popular. Thanks to low investment and operational costs it is very attractive. Maintenance is the key to good performance and long lifespan. Taking care of your cooling before winter and before summer is essential.
