## NEW REFERENCE

European giant ITALINOX in supply of stainless steel asked us to deliver reconstruction of heating for its premises in Rožňava, Slovakia. The aim was to bring down the heating costs and to provide safe and reliable system in order to achieve temperature comfort. 11 pcs of [ADRIAN-RAD AA 50](#) and [AA 35](#) were installed all together. Our partner PEPA from Banská Bystrica did the job and did it right.

## NEW REFERENCE GLS

International logistic company GLS expands its centre in Budča near Zvolen in Slovakia. Our partner GASKO – KOZMA took over installation of 16 pcs of [HEATER CONDENS CR3](#) and AZ KLIMA is about to finish the installation of our door curtains [GUARD](#) for all 23 gates. Low weight literary means lower installation costs thanks to fast mounting and minimum of installation material. Together with adjustable power and air flow it was the perfect choice.

## NEW ADRIAN-AIR ERP RANGE

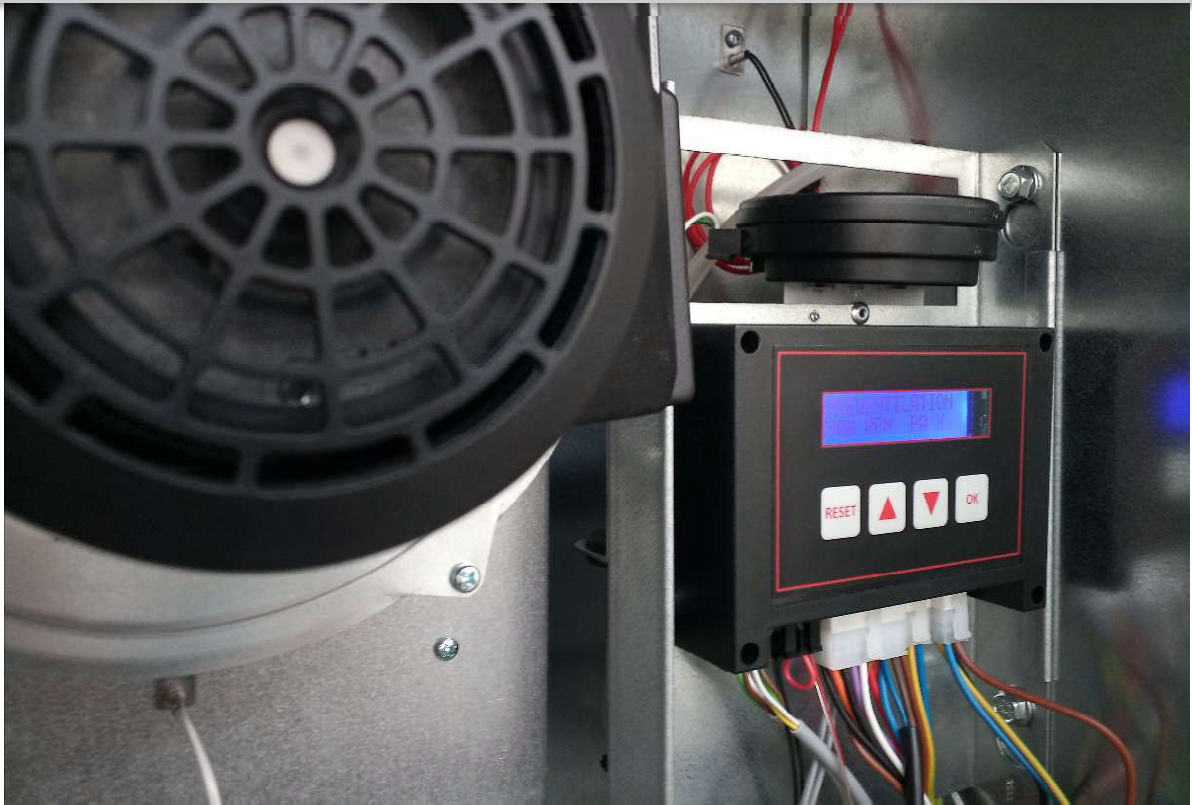

We introduce new range of ADRIAN-AIR ERP with two step burners and power ranging from 24 to 73 kW. The major difference offers new electronic regulation which allows you to set combustion parameters for both power steps. Better diagnostics and more precise combustion settings make new units more attractive for the user. New units provide combustion efficiency up to 95 % with emissions of NO<sub>x</sub> < 69 mg/kWh. Ask for new technical manual [here](#). Shall you have any questions, do not hesitate to contact us.

## CHANGE IN DOOR CURTAIN REGULATION

ADRIAN GROUP is the exclusive distributor of SONNIGER in Slovakia. We are happy to introduce new mode of regulation of door curtains **GUARD** and **GUARD PRO**. New solution saves costs and it simplifies the whole matter. Speed regulator **SPEEDER** and automatics **CONTROLBOX** were fully replaced by either **PANEL COMFORT** for one curtain blower or in combination of **PANEL COMFORT** and **MULTI 6** for up to 6 pcs of units. Door sensor remains unchanged. Ask for your technical manual or contact us at 00421948 312 270.

## PRESENTATION DAYS

Eased restrictions allowed presentations for architects, project designers and installers to take place in traditional face-to-face manner. We used this opportunity to introduce updated information about the range and the offer for upcoming season. Main topics included hot water [SONNIGER](#) units and mobile phone app type of regulation [ADRIAN SMART](#).
