YEAR-ROUND COOLING IN INDUSTRY

Did you know that there are also production facilities that need cooling all year round? Today, many production halls have a problem with waste heat, which is generated either by the operation of machines or technological processes, which subsequently overheats their space even outside the summer season and makes conditions difficult for employees. This is also why we installed **adiabatic cooling** in the ELTEK premises in Liptovský Hrádek and Porsche Werkzeugbau in Dubnica nad Váhom during September and October 2023. In the company ELTEK, 5 evaporative coolers with the outlet through the old unused ventilation holes and ending with multi-sided diffusers. This delivery was turn-key project, including water electricity installations provided by our partner MIP Slovakia from Ružomberok.

In the company Porsche Werkzeugbau, 8 **adiabatic units** with ducts led through skylights and ending with multi-sided diffusers were installed. Central control system was also implemented, which allows the responsible employee in the plant to monitor the functionality of the cooling units remotely and control the cooling as needed. This eliminates unauthorized and unprofessional control intervention.

Are you thinking about how to cool your space efficiently and at low cost? Do not hesitate to contact us at sales@adrian.sk or +421 948 352 067 and get ready for the upcoming season.

EXPERTS TOGETHER ON ENERGY IN INDUSTRY

Under the auspices of the Slovak Chamber of Construction Engineers, we are preparing expert presentations on HEATING AND COOLING OF INDUSTRIAL HALLS in the SKSI Regional Office in Banská Bystrica. The focus will be on the application of ADRIAN products in various industrial spaces to solve various customer requirements. Together with the chairman Ing. Miroslav Divok, we invite you on 21.11.2023 from 9:00 a.m. to the premises of the chamber at Ján Kollár Chamber 2 in Banská Bystrica. Whether you are a member of the chamber or not and you are interested in learning more, contact us at adrian@adrian.sk.

SKSI SLOVENSKÁ KOMORA STAVEBNÝCH INŽINIEROV REGIONÁLNE ZPŕAZENIE SKSI BANSKÁ BYSTRICA

POZVÁNKA
na odbornú prednášku

VYKUROVANIE A CHLADENIE PRIEMYSELNÝCH HÁL
ktorá sa uskutoční dňa

21. novembra 2023 (utorok) o 9:00 hod

v zasedacej miestnosti R1 SKSI Banská Bystrica, U. Kollárova 2,2, 974 01 Banská Bystrica.

Organizátor: Slovenská komora stavebných inžinierov RZ Banská Bystrica
U. Kollárova 2,2, 974 01 Banská Bystrica
kontaktná osoba: Zuzana Parobíková
telefón: 0905 111 945, mobilný telefón: 0905 914 576, e-mail: zuzana.parobikova@sksi.sk

Dobrotný garant: Ing. Miroslav Divok
Prázdny nápravník stárojiská technické vybavenie stavieb, Technológié vytváranie stavieb

Organizačný garant: Zuzana Parobíková
Organizačná pracovníčka RZ SKSI 88

Program:
8:45 – 9:00: Registrácia účastníkov
9:00 – 9:05: Otvorenie Ing. Miroslav Divok
9:05 – 12:00: Prednáška:
VYKUROVANIE A CHLADENIE PRIEMYSELNÝCH HÁL
Témy prednášky:
- výpočet tepla a chladenia v priestore haly a v priestore (oda, odberná energia, plyn)
- spôsoby umiestnenia a prístupov výfukových jednotiek (VJ)
- aplikácie chladičov na freónovú a adiabatickú (evaporatívnu) chladiacu
- návrh a praxná rada pre umiestnenie a používanie adiabatických jednotiek

Próhľadajúc:
Banská Bystrica, technická poradňa firma ADRIAN GROUP s.r.o.
Ing. Michal Mňajka, technická poradca firma ADRIAN GROUP s.r.o.

12:00 – 12:30: Dĺžkova
12:30 – 13:00: Ukončenie seminára, obed

Podujatie organizované formou prezračovacej formou.
Členovia SKSI účasť bez poplatku 0,- € / osoba.
Za každý účastnícky poplatok 150,- € / osoba.

Na základe na objednávku: kapacita zasedacej miestnosti: Vm: objednavka.prijim@sksi.sk, objednavka@sksi.sk, najneskôr do 16. novembra 2023

END OF COOLING = BEGINNING OF HEATING

Don't forget to winterize your adiabatic cooling well. Temperatures, especially at night, are dropping and it is dangerous to leave cooling units full of water and without regular maintenance. Contact our sales@adrian.sk and we will be happy to prepare an offer for the "winterization" of your evaporative cooling system and provide expert advice. Currently, for autumn maintenance, we also offer cover sleeves made of high-quality materials, priced from EUR 175,- excluding VAT. Check availability and take proper care of your evaporative units. Also, don't be misled by the relatively high temperatures for this time of year. If you want to check or repair your system before starting the heating, it is almost too late to order a professional service. Call +421 948 352 067 and make an appointment.

GREAT ACTIVITY IN POPRAD

How to buy installation material for the current order in the morning and not starve to death? Come to MIRAD store in Poprad for breakfast. We organized such a funny and useful event last month. Along with coffee and a good mood, the customers also took away knowledge about hot water blowers and door curtains. A lot of questions and demands were solved while waiting, as real samples of devices were also exhibited. We will inform you about other events from the "breakfast with..." series.

BUY SPARE PARTS CONVENIENTLY AT THE ESHOP

With a smooth transition to the autumn period, the heating season also began. The operation of heating devices is also related to their service and, if the situation requires it, the replacement of spare parts. Are you dealing with a malfunction of the ADRIAN heating device and can't identify the right type of spare part? You can easily and clearly identify the parts at the ADRIAN GROUP e-shop eshop.adrian.sk.

In the current period, we process several dozen inquiries and orders for spare parts per week. By ordering spare parts through the e-shop, you get the following benefits:

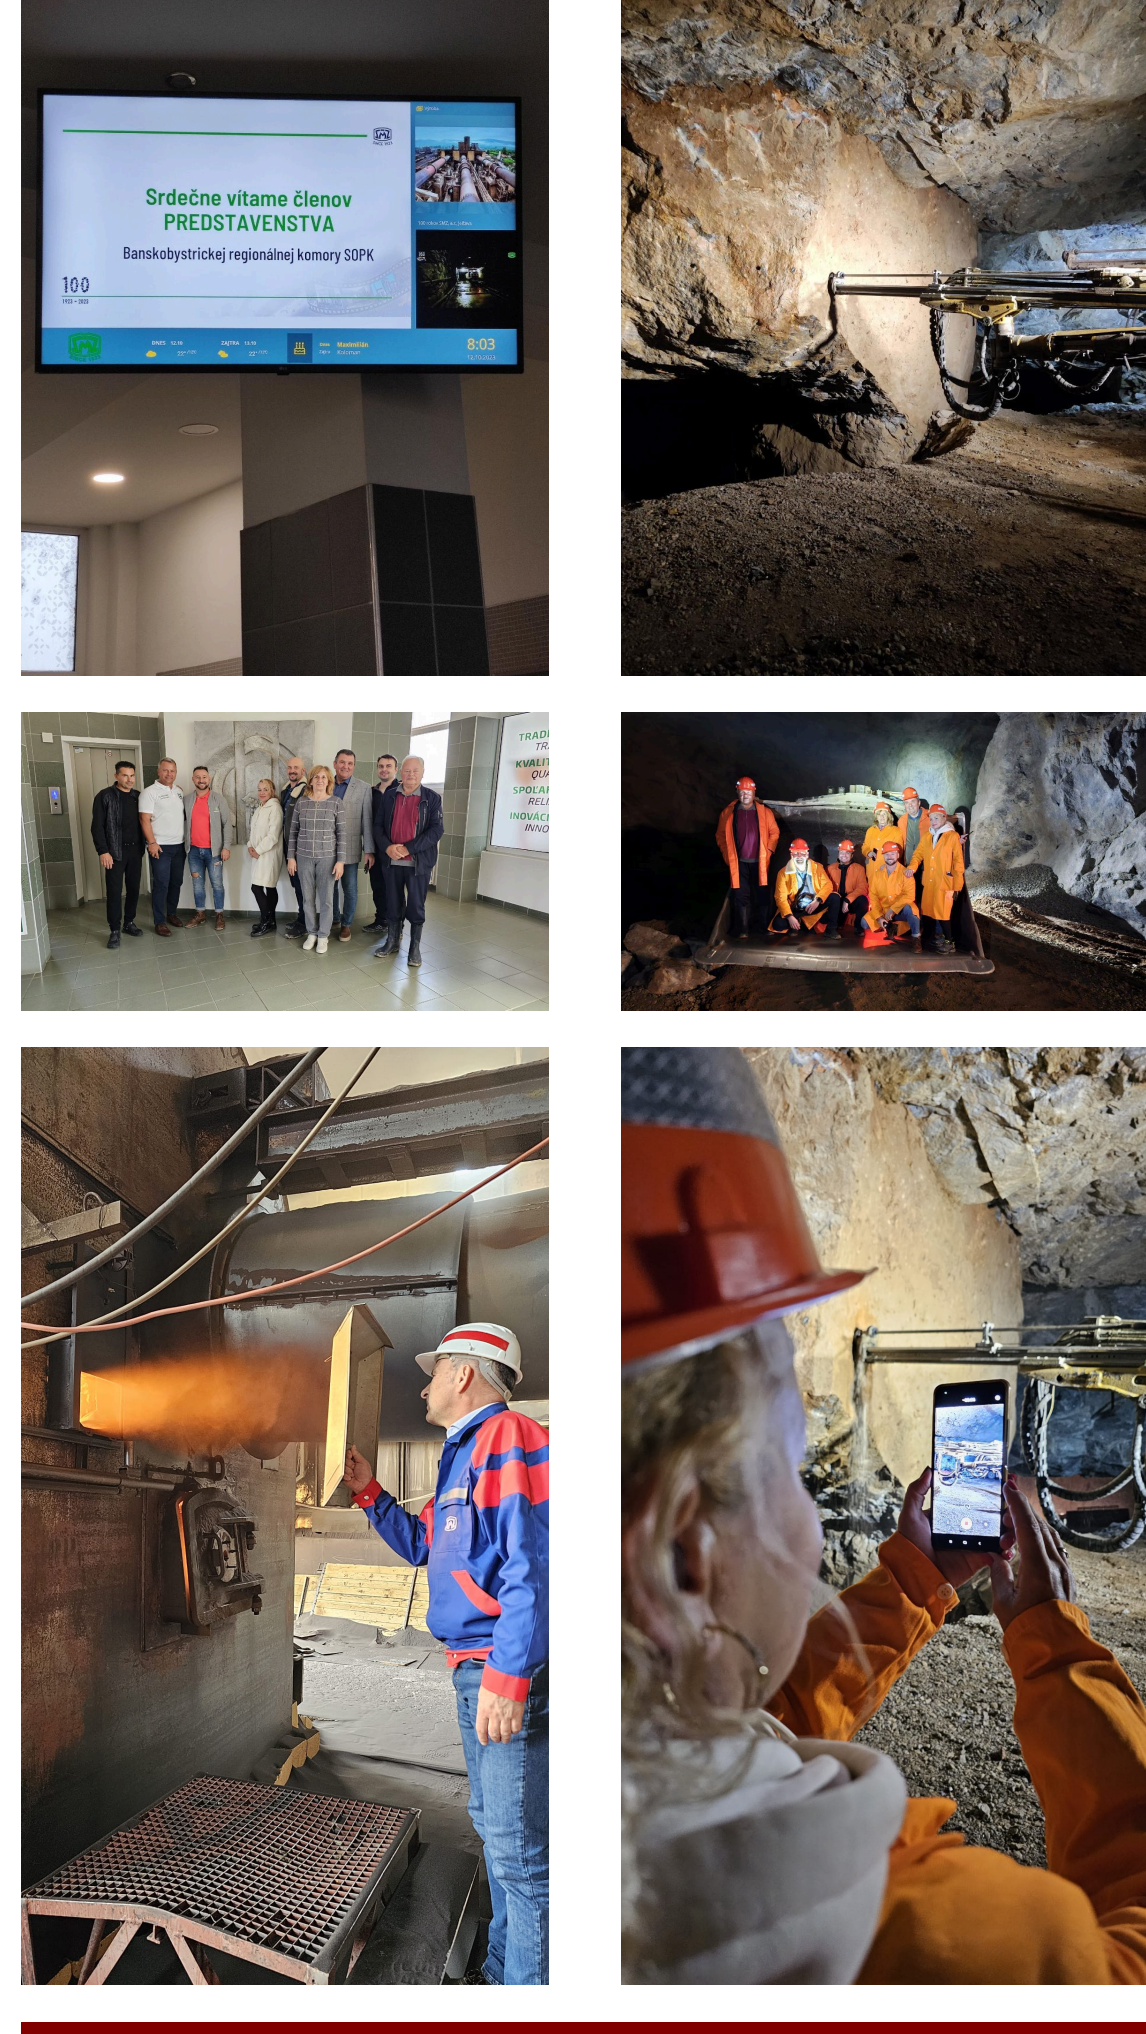

- the possibility to immediately check the compatibility of the part in the appliance with the spare part in the e-shop
- priority processing of your order (orders via the e-shop are processed automatically by the system)
- payment of the order by card in advance, which also speeds up the delivery time

Are you a new customer of ADRIAN GROUP or have you never ordered through the e-shop before? Do not hesitate to make your first order at the catalog prices and our staff will apply your standard discount on it additionally. For further orders, the discount will be applied automatically through the e-shop. Do you need to provide service or revisions of ADRIAN brand heating appliances in your establishment? Do not hesitate to contact us at sales@adrian.sk or +421 948 352 067.

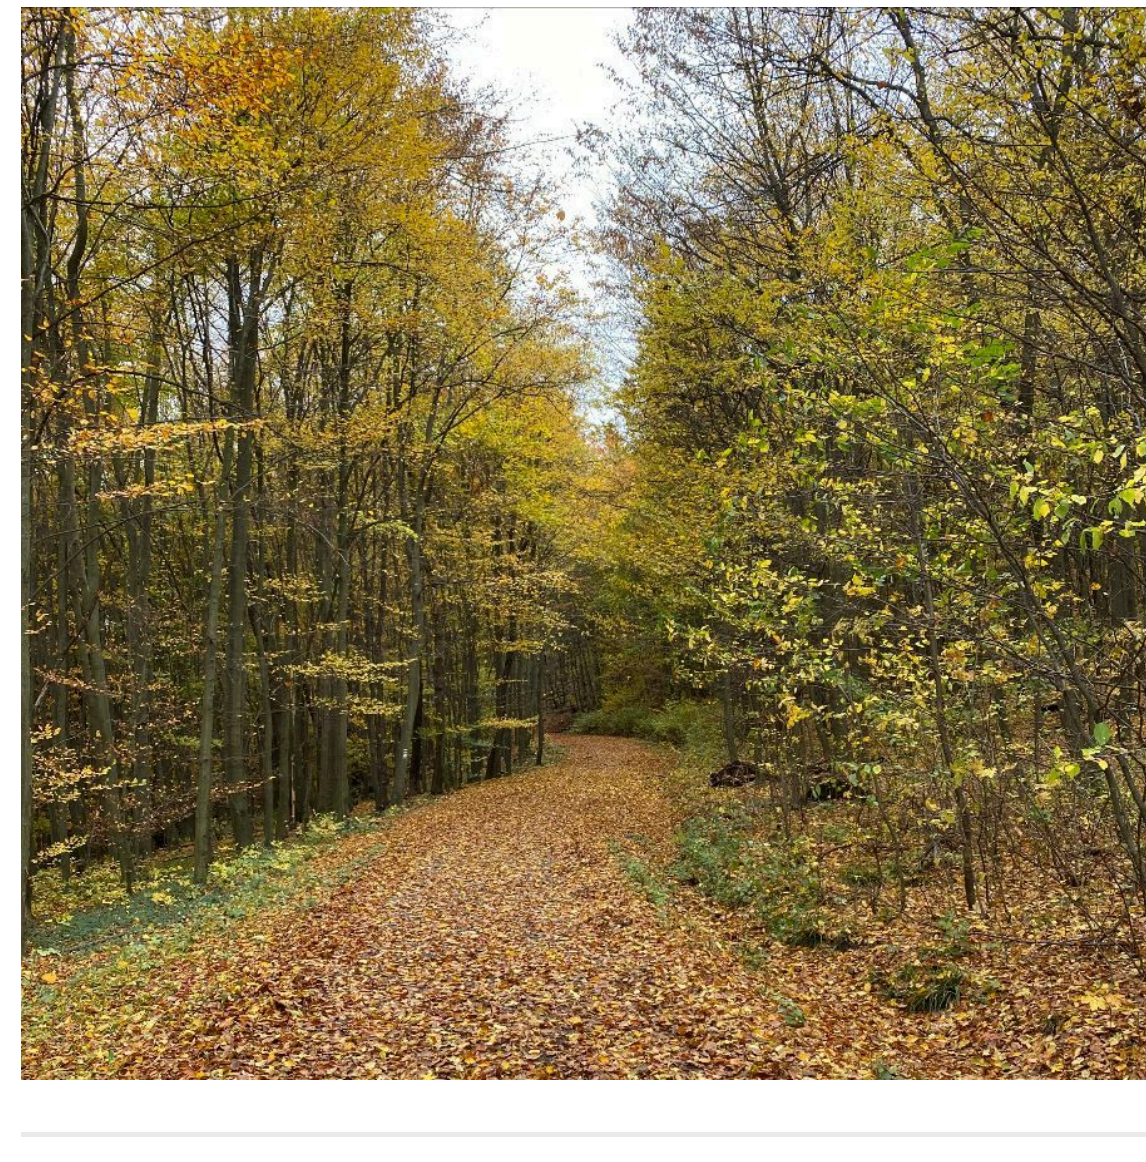

BOARD OF DIRECTORS OF REGIONAL CHAMBER OF COMMERCE IN JEĽSAVA

On the occasion of the 100th anniversary of the Slovak Magnesite Industry, the meeting of the Board of Directors of the Banská Bystrica Regional Chamber of Slovak chamber of commerce and industry was held in Jeľsava. SMZ a. s. is our long-standing client and an important employer in the region. We are proud of the cooperation in the framework of business relations and joint activity on the bases of the chamber.

REFERENCES ABROAD

The ADRIAN brand is well known not only in Slovakia but also abroad. For example, we have been working with partners in Kazakhstan for a long time. Now they shared their successful references. As the customer confirmed, with an outside temperature of -34°C, the temperature in the hall with dimensions of 2,000 m² and a height of 8 m never drops below zero. And the employees are said to be complaining that it's too hot, added the facility administrator with a smile. We are pleased that hot air heating using ADRIAN-AIR gas units has proven itself even in such harsh weather conditions.
